

Summary of MRCM-Recall Party's Manifesto

MRCM means - Mine Royalties for Citizens and Military

Recall means – Procedures by which we commons can replace PM, CMs, Supreme Court judges, all other judges, RBI Governor, District Police Chiefs, District Education Officers and 80-100 such officers at National, State, District levels.

Authors: **Chimanbhai Mehta, Freedom Fighter**, former Education Minister (Centre)

1 MRCM-Recall Party's first five demands

1. The first demand has following parts
 - a. Collector would take “letter from citizen to PM/CM” and put it on the Govt website for Rs 200 fee
 - b. Talati would allow citizens to register YES/NO on any of the proposal for Rs 3/- fee.
 - c. Talati would also allow citizens to register YES/NO on laws passed by MLAs/MPs
 - d. The YES/NO will come on Govt website, with name and voter-id#.
 - e. Talati would allow citizens to change YES/NO
 - f. The YES/NO count will have no binding on the Ministers, officers, judges etc
 2. If over 50% of citizens approve a proposed law, the CM, PM will sign that proposed GO within 24 hours
 3. Enact procedures so that the royalties from mines and rents from Govt plots go as --- 33% directly to the Indian Military and 67% directly amongst the citizens of India
 4. Enact procedures by which citizens can replace CM, PM without waiting for 5 years
 5. Enact procedure by which we commons can replace Supreme Court Chief judge and other judges any day.
- These are our first five demands – there are many more.

2 How is MRCM-Recall Party different from other Parties and “intellectuals of India”?

We at MRCM-Recall Party differ from most parties and most intellectuals. Following are main differences :

MRCM Party	Other parties' MPs, intellectuals of India
1. Ownership of Mines, Govt plots	
MRCM Party insists mines and Govt plots are property of the citizens. And so the citizens and their Military should get rents and royalties. eg MRCM Party believes that citizens MUST get rents from GoI plots such as IIMA/JNU plots, airport plots etc	The leaders of Congress, BJP, CPM and all intellectuals of India have firmly said that mines and Govt plots are property of State and citizens shall have no ownership over them. And they have categorically refused to give rents to citizens over IIMA, JNU and airport plots
2. We are Democracyists and support recall, MPs of other parties and intellectuals oppose recall and are fascists	
We at MRCM party are the only ones in political arena who insist that we commons MUST have legislative powers and powers to expel/replace PM, CMs and 10s of	The biggest difference is --- all other parties and all intellectuals of India consider us commons and all voters as fools, and insist that we commons should have no say

<p>officers, judges as National, State and District levels. IOW, we are Democracyists</p>	<p>in law-making, appointments and replacements of officers, policemen, judges and decisions taken in courts. India's most intellectuals have fascists mentality and so they firmly insist that all discretion in administration should be with Ministers, IAS, IPS, judges and intellectuals only. Forget discretionary powers, so fascists are Indian intellectuals that they even oppose registration of citizens' YES/NO on laws passed !! We abhor their fascism, and they abhor our Democracyism.</p>
<p>3. Citizens' interpretation of Constitution, not that of SCjs, is final</p>	
<p>We are the only party in India who believe that India's Constitution as interpreted by us Citizens of India shall be the final voice. And so we insist on Jury Systems and Citizens Review. IOW, we believe in Constitutional Democracy.</p>	<p>Whereas all other parties have always opposed Jury System. And all intellectuals insist that Constitution as interpreted by 24 Supreme judges is final and us commons' interpretation is garbage. The interpretation of SCjs should be mercilessly and ruthlessly imposed over the commons. IOW, other parties and intellectuals believe in Constitutional judocratic Fascism.</p>
<p>4. Disclosing drafts of Govt Orders</p>	
<p>We are the first and ONLY party in India, who are showing the drafts of the Govt Orders we promise.</p>	<p>Every party makes policy promises, but each party's leaders refuse to publish drafts of the GOs they promise.</p>
<p>5. On the myth of Political Culture</p>	
<p>The problems of India are due to bad laws intellectuals and other Party's MPs have enacted. Nothing is wrong with the culture of us commons.</p>	<p>These intellectuals have created a myth of political culture and claim that problems of India are due to this political culture and not due to flawed laws they support.</p>
<p>6. Reducing corruption, nepotism in courts</p>	
<p>We are the only party who speaks against nepotism in courts and support laws to curb nepotism in courts.</p>	<p>All party leaders. intellectuals have supported the laws that promote nepotism in courts.</p>
<p>6. Some 120 more differences</p>	
<p>We have proposed about over 120 Govt Orders to bring changes in administration.</p>	<p>And the other parties and all intellectuals of India oppose each every one of the changes we have proposed !!</p>

3 The first two demands, promises

We demand PM, CMs to sign 2 Govt Orders which are as follows.

	<u>Procedure for</u>	<u>Procedure / instruction</u>
1	District Collectors	All District Collectors are ordered that if a citizens comes to their office with a letter to PM, they must accept letter for a fee of Rs 200 per page, issue a serial number with place/date , scan the letter and put the letter on PM's website.
2	Talaties (or their Clerks)	All Talaties are ordered that, if a citizen comes to Talati's office to register his YES/NO on any law passed by MLAs and MPs or any letter submitted to any Collector, then the Talati (or his clerk) would charge a fee of Rs 3 and must enter citizen's voter-id, law name, clause number or letter number and the citizen's YES/NO in his PC. The fee for BPL card holder will be Re 1.
3	Talaties (or their Clerks)	The Talati would provide a computer generated receipt to voter with letter number or name of the law, serial number of the clause, date the law was passed, the date when YES/NO was entered, the citizen's voter number and his YES/NO.
4	Talati	The Talati will also allow citizen to change his YES/NO for Rs 3/- fee. The fee for BPL card holder will be Re 1.
5	District Collectors	The Collectors are ordered to ensure that YES/NOs the citizens come on Talati's website at link decided by Cabinet Secretary (Center). The website should show citizen's voter-ID number, name, his latest YES/NO and date when he filed YES/NO.
6	Cabinet Secretary	The Cabinet Secretary or the officer designated by him will publish the YES/NO count for each law as on Friday closing on every Wednesday on the link decided by Cabinet Secretary (Center)
7A	----	For the purpose of informing citizens, it is hereby stated that the citizens' YES/NO counts will not be binding on any Minister, officer or a court.
7B	PM	On 91st day after GO was proposed, if over 50% of ALL voters (not just those who registered YES/NO but ALL registered voters) register YES on the proposed GO, PM shall resign or sign the proposed GO within 24 hours. And if MPs' approval is needed, PM shall obtain it within 90 days or shall resign.

The first MRCM demand consists of clause (1-6, 7A) i.e. citizens will get procedure to register their complains, proposed Govt Orders etc and also register their YES/NO on laws enacted by MLAs and MPs by paying Rs 3 fee. That YES/NO has no legal value as said by clause-7A. In the second MRCM demand the clause-7A is cancelled and is replaced by clause 7B i.e. if the YES-count is above 50% of all registered voters, then it becomes binding on PM , CM to sign the GO proposed by the citizen under clause-1.

The registration of citizens' YES/NO on GoI website via Talati's office is our principal demand, as well as strategy to materialize future changes.

Enacting this GO does NOT mean that CMs, PM would need citizens' YES/NO on every GO. The GO we demand and promise will not stop PMs and CMs from issuing GOs as they can now. The above GO does not require

or even expect citizens to register YES/NO on every law. Nor does it mean that MPs , MLAs cannot make any more laws --- the may as they do now. The above GO only means that if a citizen wants to register YES/NO on some of the laws , Govt shall not block him and Govt shall register his YES/NO. Now out of 1000s of laws we have, not all will register YES/NO on all laws. But x% may register YES/NO on some 100-200 laws, and x% may be very high for laws such as DVA, 498A etc. This x% YESes or NOs can create a powerful movement for/against that law. I would give an analogy. Many hotels have dining rooms, and also provide kitchen in the rooms. Why both? The issue is option --- those who want to cook their own food will do so and those who want to use dining hall will do so or both --- i.e. most guest will use dining hall most of the time and may cook their food when they like. Likewise, this GO simply creates “an additional option”.

The citizens will depend on MLAs, MPs, CMs, PM for most laws and GOs as today. But there are times when MLAs, MPs, CMs, PM refuse to listen. eg Majority of citizens want 498A and DVA to be canceled, but MPs, MLAs insist on this law as this law fetches huge bribes to policemen (and MLAs, MPs get part of these bribes via IPS). These are the times when if citizens have procedure to register YES/NO on laws, they may be able to use it.

4 The third MRCM-Recall demand – Mine Royalties to Citizens and Military

4.1 Introduction

Aham rashtrim vasunam sangamani – Atharvved (I, the nation, own the natural resources)

We want to enact this law using the second proposed GO and using YESes of over 50% of voters i.e. about 37.5 crores voters. IOW, MRCM-Recall Party does not need majority in Parliament to get a favorable GO, and we dont need even one MP in Parliament to enact this law. We only need Third Proposed GO to get signed and we will have this forth one. The most important of all changes the MRCM Party demands and promises is –

The land rent over IIMA plot, JNU plot, Gujarat Vidyapeeth plot, Gujarat University plot, all UGC plots, Ahmedabad airport plot, all airports plots and 10000s of such Govt owned plots and royalties from all waters, mines, coal and crude oil of India shall go the Citizens of India and Military and no one else, and will go directly not via any scheme.

This will create an income of over Rs 7000 per person per year. Per person, not per family. And this shall drastically reduce poverty, increase demand, increase industries and this increase employment. Here is how the land rent and mine royalties shall come to the citizens of India. If we come into power, on the first day, we shall issue the first 3 as well this 4th change, which shall enable citizens to have income of over Rs 800 per month.

4.2 Details of the proposed law

Citizens’ control over main officer

1. One of the clauses of the draft of third MRCM Govt Order says : “the PM shall appoint a **NLRO** (National Land Rent Officer), whom citizens of India may replace using the following procedure ... ” . The procedure is as follows
 - o Any citizen can register himself as candidate for NLRO.
 - o Any citizen of India can walk to Talati’s office, pay Rs 3 of fee and approve at most five persons for the NLRO position. The Talati will issue receipt with his voter-id#, persons he approved etc.
 - o A citizen can cancel his approvals any day as well..
 - o If a candidate gets approval of over 50% of **all** registered voters (all registered voters, not just those who have filed their approval) then PM will expel existing NLRO and appoint that candidate as NLRO.
2. The NLRO will allocate the lands which has been declared as property of the Citizens of India by a law or a National Jury verdict that specifically authorizes the NLRO allocate that land.

Collection of rent

3. One of the clauses of the forth Govt Ordinance MRCM Party demands , promises says : “The Citizens of India hereby decide and declare that plots of IIMA, Gujarat Vidyapeeth Ahmedabad, all IIMs, JNU and all non-private

plots are property of the Citizens of India ... not the property of the "State" ... All the Ministers and judges of India, ... are hereby requested NOT to admit any plea that challenges this verdict of the citizens of India."

4. Another clause says : all plots under following Ministries/Dept will also come under NLRO :
 - Airports, all buildings owned by Air India and Indian Airlines
 - IIMs, all UGC funded colleges and universities except those teaching science and engineering
 - Ministry Consumer Affairs and Public Distribution, Ministry of Information and Broadcasting
 - Ministry of Information Technology , Ministry of Rural Development, Planning Commission
 - Ministry of Small Scale Industries & Agro and Rural Industries
 - Ministry of Social Justice and Empowerment, Ministry of Textiles, Ministry of Tourism and Culture
 - Ministry of Urban Development and Poverty Alleviation, Ministry of Youth Affairs and Sports
 - Plots under Military, Police, Courts, Railways, class I-XII govt schools, bus stations wont come under NLRO.
5. [About IITs, IISc etc : A separate Govt Order we demand says: --- All the IITs, NITs and IISc shall come under DRDO and the DRDO director shall be the Chief Officer of these colleges.]
6. For the unused land, NLRO will divide the land in plots of appropriate sizes as he seems most profitable. NLRO will hold auction for each plot. The conditions for auction will be as follows
 - The lease will be for 5, 10, 15 , 20 or 25 years as decided by NLRO. The lease shall not be more than 25 years
 - The bidders will give bids for monthly rent and bidding period which can be less than maximum lease period. Minimum lease period will be 12 months. The bids will be open
 - The NLRO will give the plot as per weight of the bids.
7. During the lease time, the NLRO will revise the rent every 3 years based on % change in the land prices in the 1sq km area around that plot and % change in interest rate from the day the plot was leased.
8. After the lease time is over, NLRO will hold a fresh auction, where in existing lease holder will get benefits
 - his weight will get multiplies by 1.25 to 1.5 depending on number of years he has paid rent.
 - he may increase his bid within 1 month after auction is over.
 - the existing lease holder will get 2 to 6 months new rent when he vacates.
9. But if existing lease holder loses the auction, then he can move or sell the fixtures on that land. But he will need to vacate that land.
10. If the plot is currently being used and occupied (eg airport plots), NLRO will take the mean land price in past 3 years of sale in 1 km area round the plot and decide the price of plot and set yearly rent as (market_price * prime_interest_rate/3) for next 10 years. The rents will be revised every 3 years. After 10 years, an auction as in clause-6 will be conducted.

Dispatching rent

11. The NLRO will give 34% of the rent collected to Defense Minister for the purpose of strengthening Military and providing weapons and weapon-use education to all citizens.
12. The NLRO will distribute 66% of the rent collected every month to the citizens of India.
13. The share will be zero for those below age of 7 years, 1/4th to those below 14 years, half for those below 18
14. One year after this law is passed, the rent a person obtains will
 - increase by 33% if he has no kids
 - decrease by 33% if he has over [(2 daughters, 1 son) or 2 sons or 3 daughters] and youngest is born 1 year after the law is passed
 - will decrease by 66% if he has more than [3 daughters, 1 son) or (2 daughters, 2 sons) or (1 daughter, 2 sons) or 3 sons or 4 daughters] and in which youngest kid is born 1 year after the law is passed
15. The rent paid will be 33% higher for persons above 60, and 66% higher for persons above.

4.3 How much is land rent ?

The Govt of India, Central and States, have 10000s of plots with huge market value. Here is a small example

Plot Name	Area	Sq meter Price	Plot's market value
IIM Ahmedabad	100 acres	Rs 40,000	Rs 1,400 crores
IIM Lkhnow	200 acres	Rs 20,000	Rs 1,600 crores
IIM Lucknow (Noida)	10 acres	Rs 50,000	Rs 200 crores
IIM Kolkata	135 acres	Rs 20,000	Rs 1,000 crores
IIM Indore	190 acres	Rs 15,000	Rs 500 crores
JNU	1000 acres	Rs 40,000	Rs 16,000 crores
Gujarat Vidyapeeth	25 acres	Rs 40,000	Rs 400 crores
Gujarat University	250 acres	Rs 35,000	Rs 3,500 crores
TOTAL			Rs 27,000 crores

So the rent at 3% of value will be Rs 27,000 cr * 3/100 = Rs 810 cr a year = Rs 7 per citizen per year.

Some more examples are as follows

Plot Name	Area	Sq meter price	Approx market value
Ahmedabad Airport	1850 acres	Rs 40,000	Rs 29,600 crores
Mumbai Airport	1100 acres	Rs 100,000	Rs 44,600 crores
Delhi Airport	5000 acres	Rs 100,000	Rs 200,000 crores
Banglr. Airport (new)	4050 acres	Rs 10,000	Rs 32,400 crores
Banglr. Airport (old)	1000 acres	Rs 100,000	Rs 40,000 crores
Calcutta Airport	1500 acres	Rs 30,000	Rs 18,000 crores
Chennai Airport	4800 acres	Rs 40,000	Rs 76,800 crores
TOTAL			Rs 440,800 crores

Rent of these airport plots at 3% of market value of plot = Rs 440,800 cr * 3/100 = Rs 13,224 cr year = Rs 120 per citizen per year !! The Govt has about 50000 plots by one estimate. Even if rent from each plot is as small as Rs 0.10 per person per year on an average, the rent exceeds Rs 5000 per person per year.

4.4 Effect of land rent collection

One the land rent act is enacted, one of the two things will happen ---

1. either we commons will gain say Rs 700 per person per month OR
2. the price of land will fall, as renting makes hoarding impossible.

The latter is more likely. Now if price of land falls, then housing price will fall, which will improve quality of the lives of us commons --- many of us commons who live in slums will be able to move to say 1BHK flats. And if price of land falls, number of businesses will rise (since as real estate cost drops, it becomes easy for craftsman to expand), and we commons will have far more jobs and better salaries. Higher industrialization would increase the mineral prices, and so the mines' royalties will increase. So in any case, the proposal of land rent from IIMA plot, other IIM plots, JNU plot and 10000s of plots and mines we commons own is bound to benefit us commons by a substantial amount. So land rent and mine royalties proposal will create incomes, reduce poverty, improve land and houses availability to the poor and middle class. Thus it will increase purchasing powers of the poor and middle class. The increase in purchasing powers will increase demands and thus increase industries and which will increase employment and skills. And it shall also strengthen our Military.

4.5 How much is mine royalties?

The mine royalties estimation is possible, but varies selling prices fluctuate. Here is an estimation based on Jun-2008 prices. The estimation uses following method, which are borne from laws I am proposing. As per laws I am

proposing, the mines and oil wells will be leased using competitive bidding. So the charge miners would charge will be rock bottom low and will depend on prevailing labor wages in India and cost of equipment. Now in the laws I am proposing the Govt would charge international selling price from the buyers. The difference would be royalty of which 67% will go to citizens directly and 33% would go to the Military.

Following is my estimate of crude oil royalty based on Jun-2008 prices

Crude oil

Oil international price = \$140 per barrel

Extraction price in India = below \$25 per barrel including all costs.

(As on Jun-2008 oil companies charge \$55 per barrel and make huge profits which becomes loss due to buying oil at \$150 from international market. \$25 is price Indian oil companies were charging in early 2000s to Indian refineries. To that add the fact that Indian oil companies are hugely over staffed and over pay their employees. eg clerk in ONGC gets about Rs 20000 including all perks and expenses while clerk in private gets Rs 8000 or so).

Production in India = 660,000 barrels per day

= 660,000 * 365 barrels per year

= 24,09,00,000 barrels per year

= 24 crore barrels per year

Population = 110 cr commons

Per capita Production in India = 0.22 barrels per Indian

Profit = 115 dollars per barrel

Total profit in dollars = 0.22 * 115 = \$25 dollars per Indian

Dollar price rate = Rs 45 per dollar

So profits in rupees = \$25 * 45 = Rs 875 per common per year

Iron Ore

production = 123 million tonne = 12.3 cr tonnes = 0.11 ton per Indian

price = 150 dollars per tonne = Rs 7600 per tonne

mining cost = Rs 300 per tonne

Profit per tonne = Rs 7200

Profits per common = 0.11 * Rs 7200 = Rs 730 per year

IOW, if crude oil is given to refineries at International price, and profits are dispatched to every Indian, every Indian will get Rs 875 a year. This was just crude oil. The royalties that come from coal, natural gas, granite, marble, kota stone, copper, alumina, iron ore and waters also form sizeable amounts. Once citizens know that they are getting mines' royalties, they will curb the mine mafias and this will enable honest people to enter the mining business and thus royalties will increase by several folds. *As per our estimates, the mine royalties will exceed Rs 4000 to Rs 6000 per person per year*

So mine royalties and land rents will add to about Rs 18000 per person per year. Of this 33% will go to Military. So the citizens will get about Rs 12000 per person per year. This money is not dole, it is money from the plots and mines we citizens own. The money is not coming from any tax. There is no "tax the rich, feed the poor" proposal. It is simply about mines and plots we citizens own.

This administrative change is THE change for which all other changes are suggested by our MRCM Party. We are proposing other changes only to bring this change and to ensure the change stays after bringing it. As of today, land rent and creation of new M3 are the principal two reasons why we commons are poor. The forth demand shall reduce us commons' poverty.

5 The Forth MRCM-Recall demand , promise – Early Recall of PM , CMs

The 4th Govt Order we promise a procedure by which we commons can replace PM, CMs promptly

1. Any citizen who wishes to be PM can inward his name to **CS (Cabinet Secretary)**, who shall a serial number.
2. Any citizen of India can walk to Talati's office, pay Rs 5 of fee, approve at most five persons for the PM position. The Talati will give him a receipt with his voter-id#, date/time and the persons he approved.
3. The Talati will put citizen's preferences on Govt website with his voter-ID.
4. A citizen can change his approvals any day for Rs 3 fee
5. On every 1st of the month, the CS will publish the approval counts of each candidate for each of the position
6. The Approval count of the PM will be counted as higher of the following two
 - o number of citizens who have approved him
 - o sum of votes obtained by the MPs who have supported the PM
7. If any person has 2% more approvals than existing PM, then the existing PM shall resign and person with highest Approvals shall become PM.

Some explanations

The replacement as per our procedure shall happen if and when say 2% of all voters i.e.2% of about 75 cr voters i.e. 1.5 cr voters more than existing approval count existing PM has approve a new person. To give an example, the PM of 2004 has support of about 300 MPs whose votes add up to about 18 crores. So as per the proposed procedure, if and when over 19.5 crores citizens approve another person, the next person shall become new PM. To give one more example, the CM of Gujarat in year 2008 had support of 117 MLAs whose votes add up to about 1.12 crores. The total votes in Gujarat are 3.5 crores and 2% of total votes of Gujarat will be 0.07 crores. So if a person obtains approvals of 1.19 crore citizens, he shall become new CM

Following is the draft of the proposed GO at National level is as follows

Govt Order : Letting a citizen specify whom he approved for PM position

#	<u>Procedure for</u>	<u>Procedure / instruction</u>
1	-	The word citizen would mean a registered voter This GO will become operational only after over 50% of citizens of India register YES on it.
2	Cabinet Secretary	If any citizen of India above 25 years of age wishes to become PM, he can appear before Cabinet Secretary who would issue him a serial number after taking filing fee same as deposit amount for MP election.
3	Talati , (or Talati's Clerks)	If a citizen of that district comes in person to Talati's office, pays Rs 3 fee , and approves at most five persons for the PM position, the Talati would enter his approvals in the computer and would him a receipt with his voter-id#, date/time and the persons he approved. The fee shall be Rs 1 for those with BPL card. If a the citizen comes to cancel his Approvals, the Talati will cancel one of more of his approvals without any fee.
4	Talati	The Talati will put the preferences of the citizen on district's website with citizen's voter-ID number and his preferences.

5	Cabinet Secretary	On every Monday, the CS will publish Approval counts for each candidate.
---	-------------------	--

Govt Ordinance : Replacement of PM

#	<u>Procedure for</u>	<u>Procedure / instruction</u>
1	-	The word citizen would mean a registered voter
2	PM	The first PM shall count his approval count as higher of the following two <ul style="list-style-type: none"> ○ number of citizens who have approved him ○ sum of votes obtained by Loksabha MPs who have supported him
3	PM	If a candidate gets approval 2% above the Approvals existing PM has, then existing CM will resign and ask MLAs to appoint approved person as new PM.
4	Loksabha MPs	The MPs may elect the person stated in clause-3 as new PM.
5	PM	For the next PMs who have become PM via clause-3, the Approval count will be only the number of citizens who have approved him.

The effect of the forth GO

The fifth proposed change gives enormous power to citizens over CMs and PM. Till now, we have CMs , PM with mass base but no mass pressure. The procedure to replace CMs, PM creates a mass pressure on the CMs, PM. As of now most CMs, PM know that they cant be expelled for 5 years and take the citizens for ride. But with this procedure, he may or may not get replaced, but the threat of replacement will ensure that behaves better than CMs, PM of today. To enact this procedures, the citizens need not us MRCM party candidates as MPs and MLAs. they can force existing PM and CMs to enact the the 3rd MRCM GO and using the third GO, we intend to enact this 5th recall GO.

6 The fifth MRCM-Recall demand – procedure to replace Supreme Court Chief judge

6.1 Enabling Citizens to Replace Supreme Court Chief judge

The biggest reason why India ails is that we commons do not have procedure to replace PM and SC-Cj. Our forth demand solves one of these 2 major flaws – it creates a procedure by which citizens can replace PM/CM. Following is the procedure we shall enact when we shall come into power. Or better, citizens can force PM to enact 2nd MRCM demand, and enact following procedure using 2nd draft and without electing us :

1. Any citizen of India can pay a deposit same as MP election deposit to the PM’s secretary and register himself as a candidate for the position of NRJ (Nationally Recognized Jurist)
2. Any citizen of that district can walk to Talati’s office, pay Rs 3 of fee , approve at most five persons for the NRJ position.
3. A citizen can cancel his approvals any day as well.
4. The Talati will put the preferences of the citizen on district’s website with citizen’s voter-ID number and his preferences.
5. On every 1st of the month, the PM’s secretary will publish the approval counts of each candidate for each of the position

6. If a candidate gets approval of over 51% of ALL registered voters (ALL, not just those who have filed their approval) then PM will send the citizens requests to the existing SCjs.
7. If all SCjs recommend the request, the PM shall appoint him as CJI.
8. But if even one SCj refuses the appointment then the PM and all Lok Sabha, Rajyasabha MPs shall resign and call for new election.

The procedure to replace other judges is similar, but different and is described later.

6.2 Draft for procedure to Replace CJI

Govt Order : Registration of citizens' YES/NO for Nationally recognized Jurist

	<u>Procedure for</u>	<u>Procedure / instruction</u>
1	-	The word citizen would mean a registered voter. SCj means Supreme Court judge.
2	Cabinet Secretary	If any citizen of India wishes to become NRJ (Nationally Recognized Jurist) , and he appears in person or via a lawyer with affidavit before the Cabinet Secretary, the Secretary would accept his candidacy for NRJ after taking filing fee same as deposit amount for MP election.
3	Talati , (or Talati's Clerks)	If a citizen of that district comes in person to Talati's office, pays Rs 3 fee , and approves at most five persons for the NRJ position, the Talati would enter his approvals in the computer and would him a receipt with his voter-id#, date/time and the persons he approved.
4	Talati	The Talati will put the preferences of the citizen on district's website with citizen's voter-ID number and his preferences.
5	Talati	If a the citizen comes to cancel his Approvals, the Talati will cancel one of more of his approvals without any fee.
6	Cabinet Secretary	On every 5th of month, the CS will publish Approval counts for each candidate as on last date of the previous month.
7	PM	If a candidate gets approval of over 34% of ALL registered citizen-voters (ALL, not just those who have filed their approval) in a district, then PM will appoint him as NRJ
8	PM	If a candidate gets approval of over 50% of ALL registered voters (ALL, not just those who have filed their approval) and the Approval count is 2% more than all NRJs, then PM <i>may</i> send the name of the most approved NRJ to the Chief Judge of India asking him if he is appropriate for the position of Supreme Court Chief judge.
9	---	This Govt Order will become operational only after all SCjs approve this Govt Order and over 50% of citizens register YES on it.

Govt Ordinance : Resignation of PM/MPs

#	<u>Procedure for</u>	<u>Procedure / instruction</u>
1	PM , all Loksabha MPs	<ol style="list-style-type: none"> 1. If the CJI and every other SCJs recommend that the most approved NRJ should be new CJI, and the existing CJI resigns, within 30 days, then and then only the PM will appoint that NRJ as Chief Justice of India. 2. However, if any one of the Supreme Court judge refuses to accept appointment of NRJ as the Chief judge, or gives no response within 30 days, then PM and all MPs may resign and declare new election.
2	PM , all Loksabha MPs	This Ordinance will come into effect only after all over 50% of all citizen-voter have registered YES and there after SCJs approve this ordinance.

The proposed two laws will effectively implement replacement of CJI. **None of the two proposed changes violate any article in the Constitution.** And in the second law, the PM will resign if replacement does not happen, but PM with emergency powers in Constitution and CBI in hand has enough powers to make things happen. I don't need to write all those gory things in black and white.

7 MRCM-Recall Party's demands , promises in short

Following are some of the 100-120 Govt Orders (GOs) we are proposing, demanding and promising:

The first five Govt Orders we demand

(we explained them above)

Govt Orders we demand to reduce poverty and support elders

1. Enact procedures so that Citizens get 2/3rd of the royalties from all the mines and oil wells
2. Enact procedures the Citizens get 2/3rd of land rent coming from GoI plots like IIMA/JNU plots, airport plots etc
3. Enact procedures by which we commons of India can replace the RBI chief
4. Abolish regressive taxes such as excise, VAT, sales tax, service tax, octroi etc and enact a wealth tax which is 2% of market value of non-agricultural land for land owned above 100 sq meters per person
5. Economic incentives for having few children
6. Higher rents and royalties for elders to create support for elders
7. Enacting law that Govt shall give land only by auction and not by discretion of Ministers

Govt Orders and steps we demand to improve the Military

1. Enact procedures so that the Military gets 1/3rd of the royalties from all the mines and oil wells
2. Enact procedures so that the Military gets 1/3rd of land rent coming from GoI plots like IIMA plot, airport plot etc
3. Enact a wealth tax of 1% of market value of non-agricultural land above 100 sq meters per person for military only.
4. Increase the number of soldiers from 10,00,000 to 40,00,000, increase the salaries of soldiers by 200%
5. Increase weapon manufacturing ; recruit 200,000 engineers , 20,00,000 labor in weapon industries.
6. Introduce compulsory weapon use education for all citizens of India.
7. Conduct ten 3000 kiloton atmospheric nuclear tests and forty nuclear tests to be at par with China
8. Increase the nuclear arsenal of India to establish parity with China

Govt Orders we demand improve the police force

1. **Enact National-ID system**, so that it becomes easy for policemen to track down escapees, accused etc.
2. Enact procedures that citizens can replace the District Police Chief
3. Enact Jury System, so that citizens can expel any unfit police officer using Jury System

4. Enact a wealth tax of 0.5% of market value of non-agricultural land above 100 sq meters per person, and use that fund on Police, Courts only.
5. Increase salaries of policemen by 100% , in steps as corruption decreases
6. Increase number of policemen from 15 lakhs to 45 lakhs in India
7. Computerize all police stations and police records
8. Recruit policemen strictly via written exams, physical tests (no interviews)
9. Transfers of policemen should be at random allotment (no discretion)

Govt Ordinances we demand to improve the courts

1. Enact National-ID system, to properly record summons, warrants, cases and case histories
2. Wealth tax of 0.5% of market value of non-agricultural land above 100 sq mt per person for Police, Courts only.
3. Increase number of courts from 13000 to 100,0000, so that all pending 3 cr cases can be resolved within 3-6 years.
4. A citizen will be allowed to register YES/NO on a PIL at Talati's office after showing voter-ID and paying Rs 3 fee. The YES/NO counts will not be binding on the judge.
5. MRCM party promises following changes to end the corruption and judge-relative lawyer nexus
 - a. Enact procedures by which citizens can replace Chief judges in Supreme, High and District courts.
 - b. Enact Jury based procedures using which citizens can expel junior judges at local courts
 - c. Abolish judge system and enact Jury System in Supreme, High and Lower Courts so that nepotism (judges favoring their or other judges' relatives) and judge-lawyer-criminal nexuses end.
6. MRCM party promises following changes to end the cross nepotism in appointment of judges
 - a. The Chief Judges and 4 senior judges of Supreme, High and District Courts would be elected
 - b. All other judges would be appointed via written exams only and no interviews.
7. All transfers of judges should be via lottery only, no discretion.
8. Introduce law education from class VIII (or whenever parents say) and also teach law to adults
9. The Collector would send one magazine every six months to citizens which has names of local court judges, High Court judges, Supreme Court judges etc and general information about local, High and Supreme courts, local as well State Policemen, District Attorneys etc . This is to decrease gap between courts and commons by increasing information about courts, police etc in commons.

Govt Orders we demand to improve the administration in general

1. Enact procedures by which citizens can replace District Education Officer (DEO) , RBI Governor, CMs, PM etc.
2. Recruitments would be strictly via written exams , all transfers would be via lottery only (no discretion)
3. Enact Jury based procedures using which citizens can expel unfit junior officers
4. Create an accurate land record database and make all registration of all sales, PoA compulsory.
5. *Put the wealth, income statements of each MP, MLA, Minister, IAS, IPS, judge and their relatives on Govt website*

Govt Orders we demand to improve taxation

1. Abolish regressive taxes such as excise, VAT, sales tax etc and enact a wealth tax which is 2% of market value of non-agricultural land for land owned above 100 sq meters per person
2. Abolish section 80G of income tax act and also abolish section 35AC
3. Trusts would be taxed, religious trusts will get exemption on Rs 1000 of income per member per year
4. Citizens' Review over any Income Tax collection as well as exemption clause.
5. Abolition of all tax benefits given to SEZs

Govt Orders we demand reduce infiltration of Bangladeshies

1. Enact National Person-ID system in one year and later enact Citizen-ID system
2. Enact law that employer must report employees' Person-ID, punish employers who dont report IDs.
3. Enact Jury based tribunals to expel illegal Bangladeshies from India or at least North East
4. Expel Bangladeshies by using Family Trees built from the National ID system and using the Jury based Tribunals

Govt Ordinances , Constitutional Amendments we demand to save JK

1. Using approval of over 50% of Indians, merge JK with Himachal Pradesh and Uttaranchal.

2. Abolish Art-370
3. Encourage people from other parts to start industries in JK

Govt Ordinances we demand to improve civil laws

1. Prompt divorce, alimony and child custody for abused women
2. Prompt rental housing for divorced or separated women from Govt, abolition of 498A, DVA
3. Enact system to imprison usurers., enact system to resolve loan defaults
4. When tenant is earning over Rs 300,000 a year, make rent increase and tenant eviction possible

Govt Ordinances to reduce MNC takeover

1. Enacting a concept in Company Act of “Company wholly owned by Indian Citizens” (CWIC). If a company is chartered as CWIC when founded, then only non-NRI citizens of India can own share in this company.
2. Only CWIC will be allowed to enter into cable, telecom, defense, mining and many other business.
3. Only CWIC companies will be allowed to own land (or lease land for a period longer than 5 years).
4. Abolish dual-citizenship
5. Allow only process patents in medicine

Other small changes

1. Ban “jana gana mana” which refers to British King as God and “bhagya vidhata” of India.
2. Make Vande Mataram as the National Anthem
3. Remove the picture of Mohanbhai from all Govt documents etc including currency notes and replace it with picture of Shri Subhash Chandra Bose
4. Make Shri Bhagat Singhji’s birthday a National Holiday.

8 About lies from the intellectuals

The first two GOs we demand , promise does not require allocation of hundreds of crores of rupees, allocation of 1000s of staff, 1000s of buildings or roads. The change is nothing but citizen’s participation in Govt website via Talati’s office for Rs 3 fee. The population that does not have phones or internet is included. It is a tiny change in administration. But intellectuals have opposed this procedure. Why? The intellectuals are and have always been agents of elitemen for past 5000 years. e.g. Even when Draupadi was being abused in Supreme Court of Hastinapur by Justice Duryodhan and Justice Dushashan, Prof Dr. Dronacharya had supported Justice Duryodhan and Justice Dushashan. He did not oppose these two Justices and did not say a word in support of Draupadi. And these were the intellectuals of Dwapar Yug !! **The one and ONLY reason why intellectuals, CMs etc oppose this proposal is --- they do NOT want true and non-80G-activists to know what we commons want.** Because if non-80G-activists (a *non-80G-activist is someone who gets no tax breaks or grants to improve commons’ well-being*) realize what the citizens want, then the intellectuals will no longer be able to misguide non-80G-activists to alternate agendas that protect and benefit the elitemen. And if intellectuals cant misguide non-80G-activists, elitemen will stop paying intellectuals. This is the ONLY reason why intellectuals oppose this Govt Order we MRCM party demands. The excuses intellectuals give that Indian citizens are fools, illiterate, immature or the first demand is unconstitutional etc are frivolous and lies.

Letter to PM

Dear Prime Minister of India,

I am an Indian (citizen-voter), and I wish that my and my fellow 75 cr Indian-voters' YES/NO on laws MPs, MLAs have passed should be noted and should come on GoI website. To do so, I request to sign the following Govt Order within next 7 days.

9 About MRCM-Recall Party

Our party's name is MRCM-Recall Party.

The word MRCM means - Mine Royalties for Citizens and Military - which is a Democracyist-Militarist proposal, and the word "Recall" means procedures by which we commons can replace PM, CMs, Supreme Court judges, RBI Governor, Police Chiefs and about 80 officials at National, State, District levels. The Party manifesto in English and Gujarati is available for free download at http://www.rahulmehta.com/about_mrcm_party.htm#manifesto. The Manifesto contains the text of the drafts of the Govt Orders which MRCM-Recall Party demands and promises. If you like the GOs we are proposing, please contact us at 98251-27780 or visit us at address above or join our Orkut Community 'Mine Royalties for Citizens' at <http://www.orkut.co.in/Community.aspx?cmm=21780619>

Address : c/o 103, Rajkamal Plaza, opp Sakar-3, nr Income Tax, Ahmedabad.
